Shear force   Deformation

Accumulated Content:
fig:trackfig:pcolor(A) A track that means nothing on its own(B) A pcolor map that also means nothing on its own

I would like to refer to the main figure Figure **??**. But this less informative, and instead I should refer to specific panels.

Now, I would like to just refer to the track, Figure **??**.

Now, I would like to just refer to the colormap, Figure **??**.

Figure 1: A huge figure with a billion subfigures. (A) a gel that means something profound. (B) a heatmap that explains everything.

I would like to refer to the main figure Figure 1. But this less informative, and instead I should refer to specific panels.

Now, I would like to just refer to the gel, Figure 1A.

Now, I would like to just refer to the heatmap, Figure 1B.

Figure 2: A huge figure with a billion subfigures. (A) a schematic that shows the parts of the project. (B) a stupid experiment requested by Referee #3.

I would like to refer to the main secondary figure Figure 2.

Now, I would like to just refer to the schematic, Figure 2A.

Now, I would like to just refer to the referee experiment, Figure 2B.
